**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a Petition to Vacate a 20-foot wide public alley between F Street and G Street, approximately 140 feet south of Madison Avenue. The applicant also requests to vacate excess right-of-way around the perimeter of Block 19 of the HMF&M Addition, specifically: the west 10 feet of F Street between Jefferson Avenue and Madison Avenue; the north 10 feet of Jefferson Avenue between F Street and G Street; the east 10 feet of G Street between Jefferson Avenue and Madison Avenue; and the south 10 feet of Madison Avenue between F Street and G Street. Approval of the Vacation would allow for development of the adjacent parcels up to the back of the existing sidewalks along the bordering streets of the applicant's property. Privatization of the alley will allow for future development of the adjacent parcels.

As this request would not eliminate public street access to any abutting parcel, will not result in a reduced traffic handling capability, and does not conflict with any existing city requirements, staff recommends approval.

**ANALYSIS**

***A) Planning discussion***

The vacation of right-of-way is proposed in anticipation of a Site Development Plan Review for the expansion of the existing church on the adjacent parcels. This request is expected to be heard at a future Planning Commission meeting. Additional parking for that site will be located within the alley segment of this request. Vacation of the right-of-way along the perimeter of the block that the alley bisects will allow for construction up to the back of sidewalk without encroachment into public right-of-way. The request would not block access to any other parcels, as the applicant owns all of the property on this block.

***B) Public Works discussion***

The following information is presented concerning this request to vacate certain public street rights-of-way:

- A. Does this vacation request result in uniform or non-uniform right-of-way widths? *Uniform, as it is to vacate an entire public alley and excess right-of-way for development purposes.*
- B. From a traffic handling viewpoint will this vacation request result in a reduced traffic handling capability? *No, as it will eliminate an alley and excess right-of-way that will be incorporated into the development of the adjacent parcels.*
- C. Does it appear that the vacation request involves only excess right-of-way? *Yes, it is to vacate a public alley and excess right-of-way along four public streets on an entire block whereby all parcels have the same owner.*
- D. Does this vacation request coincide with development plans of the adjacent parcels? *Yes, a Site Development Plan Review was submitted to the City but is being held to address design issues.*
- E. Does this vacation request eliminate public street access to any abutting parcel? *No.*
- F. Does this vacation request result in a conflict with any existing City requirements? *No.*
- G. Does the Department of Public Works have an objection to this vacation request? *No.*
